**Front-End:** HTML, CSS, SASS, React

**Version Control:** Git, Subversion

**Backend:** NodeJS, Express

**Database:** MySQL, MongoDB

**Other:** Linux/Ubuntu, Heroku, VMWare

---

## Projects

### **vinyls.rytc.io**

<http://vinyls.rytc.io> - <https://github.com/rytc/vinyls>

A web app I developed to display my record collection, deployed to Heroku and uses MongoDB Atlas.

Tech: NodeJS, React, Express, MongoDB

### **gssg**

<https://github.com/rytc/gssg>

A custom static site generator written in Go with the purpose of generating my portfolio site from HTML and YAML files.

Tech: Go, Bootstrap

### **SuNodeKu**

<https://github.com/Abraham-Solis/suNodeKu>

UCI Full Stack Bootcamp Group Project 2 - A Sudoku website that offers randomly generated puzzles at selectable difficulties, leaderboards, and a forum.

Tech: NodeJS, Express, MySQL

### **Uns' Table**

<https://github.com/rytc/ld49>

Ludum Dare 49 game jam entry, a game about an unscrupulous merchant who orders the player to fight monsters and bring him the specific loot he's asking for.

Tech: C++, RayLib

### **Depar**

<https://github.com/rytc/ld48>

Ludum Dare 48 game jam entry, a futuristic dystopian platform game.

Tech: C++, RayLib

---

## Work History

### **Full Stack Developer / Freelance**

CSOC Security Team - San Clemente, CA April 2022

- Developed a web based scheduling tool with PHP, React.js, MySQL
- Replaced spreadsheets-over-email process with a custom built CMS web application
- Enabled the team leader to manage volunteers, event scheduling and logging,

### **Technical Support Engineer / Full-time**

ABMX Servers - Tustin, CA Jan. 2015 to Oct 2021

- Enhanced the QA team's performance with hands-off concurrent installations by implementing networked OS installation via PXELinux, Windows Deployment Server and Clonezilla.
- Enabled support engineers and clients to make critical hardware choices by designing and implementing a system for testing and logging OS compatibility with hardware leading to fewer mistakes when designing a server for a client..
- Increased customer inquiries by researching and writing SEO content and product descriptions for the website.

## **Customer Service / Full-time**

Home Depot - Lake Forest, CA Feb 2009 to Dec 2014

- Increased customer satisfaction by learning and providing service across several departments in the store.
- Received several "Homer" performance recognition awards for customer service, meeting store metric goals, and for on-job training.
